For black and white portraits, the standard background is white with shading to suggest light and space. For oil paintings, the standard background is a gradient color of your choice. Exterior landscapes and interior furnishings are considered complex backgrounds.

The number of animals that can be included at each size depends on the type of animal and whether the image is a head study or full figure.

Additional elements are small items such as toys, food bowls, pillows, etc. Such items can be included with or without background scenery.

I will try to work with any reference photos you provide. However, if the photos do not show sufficient detail for the desired results, I may need to take additional photos and the \$25 charge will apply. NOTE: Copyright laws prohibit the use of published materials or photos taken by professional photographers for reference.

There is no charge for preliminary sketches, including alterations, or progress photos, except as follows:

1. A \$50 per sketch charge will apply if you request changes to the format and/or scene elements while the work is in progress.
2. Sketches and progress photos are delivered via fax or e-mail at no cost. Additional charges may apply if other delivery methods are needed.

Time and location for pickup of the finished artwork must be arranged in advance. Shipping charges, if any, are the responsibility of the customer.
